8. Program Implementing Strategy:

SUROVI is the implementing partner of CBET for the Students Scholarship Project. Based on the agreement CBET provide funding support along with guidelines to SUROVI. Following steps and strategies are followed during project implementation;

- 1) CBET circulate scholarship advertisement for the students of college and public universities of Bangladesh and invite application for scholarship directly through their educational institution.
- 2) SUROVI share the circular with the educational institutions and support them if required to apply.
- 3) CBET select the students independently for scholarship considering the criteria and share the selected student list with SUROVI and respective educational institutions.
- 4) Poor talented especially girls were given priority in selection stage by CBET and educational institutions considering their vulnerability in the society context.
- 5) SUROVI brief the students and institutions about their dos and responsibilities for the scholarship.
- 6) CBET provide commitment to send money to SUROVI project A/C and then NGOAB clearance obtained for disbursement as per approved list.
- 7) SUROVI collect individual bank A/C from the students and send money to the Managing committee of colleges and departments of Universities get involved with the selection process
- 8) Agreed installment of scholarship money subject to fulfilling the conditions transferred to individual bank account of the students through Bank Transfer Advise.
- 9) Students were awarded with certificates through holding award ceremony

9. Challenges Faced:

- 1) Some colleges are not sincere enough to provide information on time
- 2) Few students make delay opening bank account; few also make mistake providing correct A/C number and Bank Routing Number that created unexpected delay transferring scholarship money
- 3) Sharing picture/video of the scholarship program with CBET is a challenge because of reluctance of the college authorities to take photos/videos of the students and award ceremony.

- 4) Difficult to reach some students over phone because change of their SIM Card.
- 5) Collect certificate from DC/UNO is a big challenge because huge district and Sub Districts are under the program but we have no enough human resource to go and liaison with them for collecting the certificate. College Authorities are not interested to involve them in the program so the Government Authority are not cooperating them.

10. Outcomes of the Program

Scholarship is an investment. It can change lives. The specific results of the scholarship program are as follows:

- 1) CBET scholarship support make easy the life of 359 college students of Bangladesh (174 colleges under 45 district), to continue their education in 2023.
- 2) 231 students of 33 university and 14 university colleges from Bangladesh received CBET scholarship support and continuing their study comfortably in 2023.
- 3) Reached 174 colleges from 45 district and 33 universities and 14 University colleges during 2015 to 2023.
- 4) 590 families financial burden and stress to bear educational expenses lessen by the CBET scholarship program.
- 5) CBET scholarship program has Lessen dropout risk of poor family students by candling light of hope in the mind of students and families to complete education toward reaching their goal.
- 6) Student got the opportunity to concentrate to better perform in academic activities that helps to manage better jobs and earning as well as support to families.

11. Recommendation

As the female students are still behind in the higher education due to get less priority from the family. So we recommend to CBET authority for consider maximum female applicant for university students' scholarship in the next selection. Get more opportunity in the scholarship program female student will go forward with their dream to be a resource and equal contribute in the family, nation and for the mankind of global society.

12. Conclusion

In the year 2023, CBET scholarship program supported 231 students from 19 General Universities, 3 Engineering Universities, 3 Agricultural Universities, 8 Science & Technological Universities, 5 Medical colleges, 3 Engineering institutions and 6 university colleges of Bangladesh. After graduation with diversified competitive skills and knowledge will enter the job market. They will contribute in the national economy rather than be burden of the family. It also

opens new horizon of 359 college students from 72 colleges to go for higher level education. Definitely CBET scholarship program is contributing in building future smart citizen and smart Bangladesh. If CBET could increase the scholarship money that will be helpful to students of poor family for accommodating the extra cost in education due to price hike.
